I am an accomplished and results-oriented Software Engineer and United States Air Force Veteran. For over 13-years, I trained Aerospace medical teams on how to use complex technical systems. Now, as a Software Engineer, I take the same systematic approach in breaking down multifaceted software issues into intuitive solutions. I seek the opportunity to merge my experience in management and Full-Stack Development to work collaboratively with cross-functional teams to build forward-thinking technology products that help individuals and enterprise organizations maximize efficiency.

Ruby ▪ Ruby on Rails ▪ JavaScript ▪ SQL ▪ Cascading Style Sheets (CSS) ▪ HTML ▪ Agile Methodologies ▪ React ▪ Test Driven Development ▪ Front-End Development ▪ Back-End Web Development ▪ MongoDB ▪ REST API ▪ Test Driven Development ▪ Express.js ▪ PostgreSQL ▪ Response Web Design ▪ Node.js ▪ Chrome Developer Tools ▪ API Development ▪ Postman API ▪ Bootstrap ▪ AdobeXD ▪ Wireframing

Experience

General Assembly ▪ New York, NY

February 2020 – May 2020

Jr. Web Developer | Software Engineering Fellow

- Participated in 500+ hours of applied training in software engineering and web development concepts focusing on front-end and back-end development
- Built skills and fluency in HTML, JavaScript, Node, Express, and other web development frameworks.
- Worked with UX Designers and Software Engineers to create full stack web applications for clients.

United States Air Force Joint Base McGuire ▪ Hamilton, NJ

March 2006 – February 2020

Operations Manager

- Trained 1,500+ diverse medical professionals in technical computer programs, management tools and operating systems to improve hospital efficiency
- Evaluated and replaced legacy software in order to transfer analog practices into streamlined digital solutions
- Project-managed the opening of new hospital location; managed 20+ direct reports in devising and implementing operation and procedural practices

Memorial Sloan Kettering Cancer Center ▪ New York, NY

June 2017 – January 2020

Healthcare Management

- Led on-boarding and background checks process for new pediatric physicians to ensure accuracy of medical credentialing at Memorial Sloan Kettering, Weil Cornell, and NY Presbyterian Hospital
- Served as a liaison between medical staff and HR department to create seamless hiring process
- Streamlined process for medical professionals to be promoted from three years to two months

Education

General Assembly (Software Engineering Immersive) | New York, NY

Community of the Airforce (A.A.S. Healthcare Management) | Denver, CO

Bryant & Stratton College (A.A.S. Medical Assisting) | Richmond, VA

Virginia Commonwealth University (Biology, 102 Credit Hours) | Richmond, VA
